

# Application for 2c Managed Forest Land classification

Provides for a reduced class rate of 0.65 percent to qualifying properties

(1) Unplatted real estate that is rural in character, is not used for agricultural purposes, and is not improved with a structure; may qualify for a reduced class rate of 0.65 percent if the property meets all existing requirements. The property must have a qualifying forest management plan (forest stewardship plan) that is registered with the DNR, but the property cannot be enrolled in the Sustainable Forest Incentive Act (SFIA) program. A minor ancillary, non-residential structure (see instructions for description) does not disqualify a property from this classification. The commissioner of natural resources must confirm that a property qualifies for the classification.

Applications are due by May 1, for taxes payable the following year.  
Please read instructions before completing application.

Landowner Info	<b>SECTION 1 – Landowner information:</b>
